HIGH PERFORMANCE WHITE LITHIUM GREASE

WD-40 Specialist High Performance White Lithium Grease is a higher viscosity solution that delivers long-term lubrication that won't drip nor run. It's great for metal-to-metal applications and reducing friction to ensure tools and equipment keep moving smoothly. The product can be used on load-bearing metal connections.

FEATURES AND BENEFITS

- Use on metal-to-metal applications
- Water and heat resistant
- Long-lasting protection against rust and corrosion
- Ideal for load-bearing applications
- High viscosity
- Withstands temperatures of -30°C to +150°C*

APPLICATIONS

Motor Pivot Points · Bearings · Winches · Latches · Pistons · Conveyors · Overhead Door Tracks · Cables · Bearings · Runners · Water Pumps · Gear and Brake Mechanisms · Metal Parts · Hinges and Catches

DIRECTIONS

Shake can well. Apply by spraying directly on surface to be lubricated and protected.

TECHNICAL

Product	High Performance White Lithium Grease
Appearance	Turbid white liquid when uniform. When left to settle: clear liquid with white precipitate on the bottom.
Odour	Pleasant citrus fragrance
Specific Gravity (SG)	SG at 25°C (0.820 - 0.830)
Temperature range	Effective performance at temperatures from -30°C to +150°C*
Flammability	Classed as extremely flammable under current legislation
Compatibility	Ideal for metal-to-metal application

PACKAGING

Product Number	Unit Size	Case Size
21002	300g/454mL	6

*after all solvent is evaporated
